EV charger integrated with ESS

Product Overview

EV charger integrates Energy-storage-system (ESS), which uses Li-ion batteries as energy storage devices. ESS with its local or remote EMS management system enables optimized energy supply and demands among grid, batteries and EVs, which is significantly applicated in peak and valley power consumption as well as lack of grid power capacity. The integration with ESS demonstrates its advantages in high-Power with less input. ESS compact charger is with thin-wall design and suitable for parking station, commercial center and EV experience center. Modular design provides high stability, easy and simple operation possibility so that it can achieve flexible deployment and uniformed service. Automatic recognition of connector plug-in and automatic charging scheduling function make it user-friendly and improve charging efficiency.

Product Features

GEN1

Compact Design:

Small footprint, thin-wall design, easy layout in parking area, high stability, easy and simple to operate, low noise.

High Power Output With Less Input:

Can provide higher output than most of other superchargers on the market when input power is very limited.

Charging Experience Upgrade:

Automatic recognition of charger connector plug-in, automatic charging scheduling, integrated LED system indication battery capacity.

Flexible Extension:

Support energy-storage module extension, achieve 2x233kWh battery capacity, intelligent power module distribution.

0-0

B2G Function:

Using bidirectional ACDC power modules with 22kW/unit, Battery can realize to supply energy to Grid with bidirectional modules when Grid needs.

Photovoltaics Function:

An external DCDC power module with MPPT function makes it available to use photovoltaics energy up to 30kW.

Power Range	DC Max.	Uр То
GEN1	150kW + 30kW / 60kW = 180kW / 210kW	210 kW
GEN2	150kW + 22kW / 44kW = 172kW / 194kW	194 kW

Techical Specification

	Net Zero Series		(GEN1)	(GEN2)
		Туре	DC charging station	(0)
		Dimension	2.3*0.75*2.38m (w*d*h)	
	Draduat	Installation	On ground	
	Specification	Material	Industrial Grade Allov	
		Color	White weather-resistant coating	
		Weight	3600kg	
	Energy-Storage- System	Battery Capacity	233kWh / 2*233kWh	
		Usable Energy (SAT)	208 kWh/2*208 kWh	
		Max. recharge Power	30kW/60kW	
		Battery Charging Rate	<0.5C	
		Battery Discharge Rate	≤1C	
		Battery Efficiency	≥94.5% under norminal situation	
		IP Ranking	IP65	
		Connectors	2	
Basic		Power Distribution	2 connectors intelligent distribution	
Parameter			DC Max 150kW+30kW	DC Max 150kW+22kW
	Charging System	Charging Power	/60kW=180kW/210kW	/44kW=172kW/194kW
		Cable	200A, 5m, CCS2 (250A optional)	
		Charging Voltage	300V~1000V	
		Efficiency	≥96.5%	
	Meter	AC Side	AC meter	
	Weter	DC Side	2-access DC meter	
	Cooling	Battery Cooling	Liquid-cooled	
	System	Power Modules	Air-cooled	
-		Cable Cooling	Air-cooled	
-	User Interface	Display Size	19 Inch	
	Payment System		RFID, credit card	
	Connectivity		GSM & LTE & LAN	
-	Communication		OCPP 1.6J	
_	Photovoltaics Input		/	300-825 VDC, Max 30kW
	Output to Gride		/	22kVA/44kVA rated power
	Applicable Site		Outdoors	
	Ambient Temperature		-25°C-50°C (over 45°C derating)	
Environment	Humidity		≤95%, No condensation	
Parameter	Altitude		≤2000m	
	EMC Emission		Туре А	
-	Medium		No explosive hazardous, No toxic & harmful gases.	
	Interference		Without strong vibration and shock, no strong electromagnetic interference	
Input &	Input Voltage		3Phase 400VAC ± 15%	
			125A, 4P	
	Outract Veltaria Danas		50Hz±1Hz	
			150VDC-1000VDC	
Output	Constant-Power Voltage Output Range		300VDC-1000VDC	
	Nominal Power Output		150kW + 30kW/60kW (22kW/44kW if needs B2G)	
	Current Output		200A/250A CCS2 continuously	
	Output to Grid (Indevelopment)		22kVA/44kVA rated power (including auxiliary consumption)	
Safety	Input Protection		Under voltage protection, over voltage protection, over current protection, over temperature protection, leakage protection, lightning protection, short circuit protection	
	Output Protection		Short circuit protection, over-temperature protection, communication fault protection, leakage protection, over-current protection	
	Emergency Protection		Set emergency stop button, leakage protection function, high-precision output insulation monitoring function	
	Special Protection		IP54 protection level, anti-salt dew, moisture-proof, anti-toxic and anti-ultraviolet	
Standard	Battery		IEC 62619, IEC61000	
Standard	System Level		IEC 62619, IEC61851, IEC62477, IEC61000, ISO15118	

Output Power Curve

GEN2
